DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1 – 16 are rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Patent Application No. 2004/0034700 (Polcyn).

With respect to claims 1 – 16, Polcyn teaches a method and system configuring communications in a voice network via a data network, comprising: receiving, via the data network, at least one pattern in a calendar for forwarding communications in the voice network; determining a time period for the at least one pattern based on the calendar; and configuring the voice network based on at least one pattern and the time period. These limitations and the other limitations contained in the claims as recited by applicant can be seen from the Figs., in particularly Fig.1. In addition, see paragraph 0006 – 0008, 0012 – 0015, 0028 – 0032, 0034 – 0039, 0045 – 0047, 0052, 0054 – 0055 and 0058 – 0069.

Response to Arguments

Applicants' arguments filed 05/04/2005 have been fully considered but are not persuasive to any error in the above rejection.

Applicants argue that there is not any discussion in Polcyn of a call-forwarding pattern applicable to a time period that includes a source identifier, a destination identifier and a forwarding identifier. The examiner disagrees. Note table 112 and paragraphs 0045 - 0046, 0051, 0054 – 0055, 0057 – 0059, 0066 and 0071.

Applicants then argue that Polcyn does not teach receiving the above information via a data network. The examiner disagrees. The Polcyn reference teaches a typical office by way of Fig. 2 (note use of WAN). Note that the Polcyn reference teaches an integration of information systems and communication systems. Note paragraph 0085 and use of e-mail.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
